

The Arellanos

Missionaries in México

Greetings! We praise the Lord for the freedom we have here in Mexico to share the Word of God anytime and anywhere. These past months have been full of activities and services that have brought new believers to the Lord.

One of our annual outside services has been the Family conference. We invite families from different churches and from different neighborhoods to listen to the gospel. The outcome has been amazing. During the three night services a total of 10 people came to know the Lord as their Savior. Many families came to the services, heard the Word of God, prayed together, and even had fellowship together. May God keep working in all these families and the new believers.

As summer begins, another semester has come to an end at the Bible Institute. The students are on vacation and are being encouraged to work in their churches this summer and keep practicing everything they have learned.

We are thrilled to announce that we are starting the construction of the church in the new mission. For a couple of months, they have held services in a small room and under a tree. But soon they will be praising God in a new building. God is marvelous and we are grateful for the doors He has opened as the construction takes place. Our special prayer request is for the Lord to supply the need for the roof top of the building. We serve an outstanding God and we know He will supply.

We are so blessed to have such a caring family in Christ. We stand amazed at the out pouring love you have showed us through your prayers and support. We love you.

God bless you always.

The Arellano Family
