

Prayer Requests & Praise

- We are traveling to DC next week to renew my son Luke's South Africa Visa. With him turning 18, it's more complicated. Pray we're able to get him a new visa that will last until December 2022.
- Please pray for my wife's hearing. She had surgery 2 years ago on one of her ears and needs to have that same surgery done on the other ear. It's a serious surgery that could improve her hearing or cause her to go deaf completely in that ear.
- Please be praying for my former Pastor Austin Gardner, who also served as the President of our mission board. He was faced with serious sexual abuse allegations from over 40 years ago. After our mission board launched an independent investigation he was found not guilty in the eyes of the investigators. There was also not a single other person who came forward with any other sexual abuse allegation from that time until now. As you can imagine, this has caused a lot of division and hurt that we are still working through. We're praying the Lord's will be done and for Him to be glorified and magnified in all we do. If you have any questions or concerns regarding these events from my perspective, please feel free to contact me.

Quick Updates

- In December, I will be traveling to Mozambique and Malawi for a survey trip with a young couple who is praying about being a missionaries to Africa. Pray for the Lord to provide clarity for this family and that the Lord will open doors for us to minister in these needy countries close to South Africa.

-A Week at Camp, A Chance at Life-

COFFEY FAMILY

Church Planters to South Africa

We've been back in the States for about 4 weeks now and are ready to get back home....well kinda:). We are leaving our daughter Emilee here when we return on November 30th. Please pray for her and for us in this new stage of her life.

On October 11, my son Chase married his beautiful bride Ashley and they are now together raising support to come back to South Africa as missionaries. Pray for them as they are on the road full time.

Our pastors and churches are doing well in South Africa. We did have the roof of one of our churches blow off at Nkandla Baptist Church, but thankful a pastor saw the need on Facebook and sent in money to help take care of that unexpected expense.

Our summer camp season at Camp Rhino is soon approaching. Pray we can raise the necessary funds to take care of all our camps this season. Our junior and teen camps will be in January. If you would like to be involved with those camps, please let me know.
