FEBRUARY & MARCH 2022

Greetings from the planet of Haiti!

It is great to be back home with the Haitian people. Getting back into the house was somewhat of a struggle. We had a major confrontation with the resistance, but after a long hard vicious fight we won and we are back in the house but there was some that really put up a "STINK". Other than the rats doing their thing in our absence, the termites also did their thing. They did a lot of damage but we gave them some new food as well as the rats and the roaches and ants but nonetheless we won the battle and we're back inside. Now to get rid of the odor. 🤢 On our personal home front here on the plateau everything is calm and peaceful. You would never know of the major problems going on in the bigger cities such as Port-au-Prince or Cap-Haitian or other major cities but we're thankful that it's peaceful here and we're looking forward to getting things back into a state of normalcy.

May 15th will be graduation for the eight students that stood their ground, did not throw in the ship or sent the towel, and completed their studies and now they're ready to graduate. We are excited for them and ask you to pray for the Bible School graduation as the students receive their diploma. With the Wall family we are well except for that age problem where everything wears out or breaks down, so I ask you to pray much for Mme. Wall who is not able to be here with me due to having her left knee replaced. If that knee turns out to be the same as the right knee did it will be a couple months or so before she's able to kick up dust again. Please keep her in your prayers. Now back to the home front: things are in major disarray for the people, especially with the cost of food, the availability of food as well as the availability and cost of fuel. And Haiti just passed a new law all salaries for the Haitian people, by mandatory decree from the government, went up 54% and unfortunately that in itself will cause the cost of all commodities to go up at least 54%. So we say to you in the states, we know how you feel with the grocery shelves near empty, diesel fuel being well over four dollars and in some places like Florida over five dollars. Unfortunately, I dragged my feet with this newsletter so it's too late to ask you to pray for the cargo flight March 8th but do ask you to pray for the cargo flight on April 12th and May 10th. Since we only receive one cargo flight a month in Pignon, not only do we need wisdom to order what we need, but also need you to pray for customs. Because of all of the skyrocketing prices, they have become a little bit more greedy than what they used to be so pray they'll have some kind of a compassionate heart to give us a break because our greatest expenses in Haiti is the purchase of, the transportation of, and the customs of receiving our goods. Should one of the items of necessity not come in then it cannot come in for another month so we need prayer 🙏. We would like to, especially in this letter and with a BIG heart, gratitude, praise and thanksgiving for you our friends our family and our supporters, Thank You for your outpouring of well-wishing for my reaching Psalms 90:10. Yes, the "OLDDOMETER" reached "80" and PRAISE and THANKSGIVING to our loving Heavenly Father, except for a few rough places you would think I was only 50! GLORY!!! Your faithfulness to pray and financially support us during the trying and difficult times of Covid has just been overwhelming. For all of you who flooded me with cards and letters, rejoicing as I reached my limit of days on earth before I "fly away", and many of you we had not seen for YEARS, came to the surprise birthday party 🍰🥳 our children had planned for me, was literally "the icing on the cake". For me, I have no idea how much longer our God is going to let me be here but Lord willing and the Saints don't rise, I hope to see ya'll soon. Here, There or in the AIRRRRRRRRRRR.

Because He Lives,
